# Manav Rai Dewan

## About Me

As a Frontend Developer, I contribute to crafting dynamic and intuitive web applications using React.js, JavaScript, CSS and HTML. My role involves enhancing user interfaces and collaborating with teams to deliver seamless digital experiences. With a strong focus on UI/UX and web development, I bring technical expertise and a results-driven approach to every project.

| 2025   |
| Instructor - Brad Traversy                               |

# Projects

## **Project One - For Desktop Version**

Spotify UI Clone project, crafted purely with HTML & CSS! In this endeavor, I delved deep into responsive design, structuring layouts, and emulating real-world app interfaces. My focus? Achieving pixel-perfect precision and meticulous attention to detail to mirror the Spotify web player's aesthetics.

## **Project Two**

Responsive Weather App created with HTML, CSS, and JavaScript! The app fetches live weather data and showcases it in a sleek, contemporary UI that adapts seamlessly to all devices ☐☐ This project was a great opportunity to enhance my skills in:- API integration- DOM manipulation- Implementing responsive design techniques- Crafting a polished UI using Flexbox & gradients
